## QUICK BUILD

### EASY ASSEMBLY MODEL KITS

# HATAKA HOBBY PAINTS

The widest range of water-based acrylics optimised for airbrush on the market – offering more than 330 true colours. All paints are highly pigmented and permanent, specially formulated for use in airbrush. Water-based acrylic paints, produced in accordance with all appropriate EU safety standards, do not include any harmful substances – safe in use and environmentally friendly. Packed in 17ml bottles with dropper tip for easy application and containing a metal ball inside for easier mixing.

The range of water-based acrylics optimised for use with a paint brush. Special formula developed and tested with top European brush-painting modellers. Ideal for usage in the wet-palette technique but also perfect for less experienced modellers and painting straight from the bottle. Highly pigmented and extremely well covering paints. After drying give perfectly even surface, without leaving traces of brushstrokes.

The range of specially formulated lacquer based paints optimised for airbrushing. The product was developed to satisfy needs of all modellers – it is perfect for professional use (application of many semi-transparent layers, gradual building of colours / colour shading, application of very fine lines, etc.), but also very forgiving to beginners. It has significantly limited odour compared to other similar products, hence is more suitable for home use. All colours are highly pigmented and permanent.

The balanced palette of vibrant, pure colours based on a 100% acrylic emulsion with high pigment concentration. Professional-quality with no fillers or extenders added. Special designed to create every colour. Both permanent and lightfast. Offering excellent adhesion on plastic, metal, resin or almost any other surface. Take control of your palette and paint better with creative colour mixing. Add a little bit of white or black and make completely different tones of the same colour. Achieve the greatest range of colour mixes using Hataka pigments. Recommended for figure painting!

## HATAKA

HOBBY

### PZL M18 DROMADER PAINT SET

Standard colours for PZL M18 Dromader Agricultural and Firefighting Aircraft

**ALREADY  
AVAILABLE!**

### PZL M18 DROMADER PAINT SET

Standard colours for PZL M18 Dromader Agricultural and Firefighting Aircraft

This set contains six colours for various PZL M18 Dromader painting schemes, including aircraft in Polish and Greek service in both agricultural and firefighting role. White and yellow are the main colours for the wings and fuselage, black for multiple stripes on the aircraft, sand colour for a fiberglass laminate payload tank cover, aluminum for the fuselage underside and cobalt blue for one of the variants of the propeller painting.

-  **HTK-8101**  
White  
Main fuselage colour for most of the Dromader aircraft.
-  **HTK-8100**  
Black  
The colour used for painting multiple stripes on the fuselage and wings of all variants of the aircraft.
-  **HTK-8222**  
Lemon Yellow  
The colour used for painting the wings and elements of the fuselage (elements vary between aircraft, sometime also as a main fuselage colour).
-  **HTK-8121**  
Laminate\*  
The colour of payload tank cover.
-  **HTK-8078**  
Aluminum  
The colour of the underside of the fuselage.
-  **HTK-8274**  
Cobalt Blue  
One of the colours used for painting the propeller.

\*The name of the paint printed on the bottle may differ - please follow the paint number

## Perfect Set

for both Polish and Greek  
Dromaders! Already available  
in Red, Blue and Orange Lines.

# HATAKA HOBBY VIOLET LINE

Perfect for figure painting!

Acrylic paints with extremely high pigmentation, designed specifically for miniature painting.

The balanced palette of vibrant, pure colours based on a 100% acrylic emulsion with high pigment concentration. Professional-quality with no fillers or extenders added. Special designed to create every colour. Both permanent and lightfast. Offering excellent adhesion on plastic, metal, resin or almost any other surface.
