Il modellismo Made in Italy

Inizia un nuovo anno. Per Italeri il 2023 si è concluso con la dolorosa scomparsa di Giuliano Malservisi padre fondatore a Bologna nel 1962 dell'azienda, insieme a Gian Pietro Parmeggiani.

Questi eventi ci spingono con ancora più forza a rivedere la nostra storia, le nostre origini e la coerenza tra il percorso svolto e gli obiettivi raggiunti.

Italeri rappresenta un punto di riferimento internazionale del modellismo "Made in Italy". Continua a produrre e sviluppare i suoi prodotti in Italia nel cuore di una regione ricca di creatività imprenditoriale, alta tecnologia e passioni sanguigne dove sono nate realtà come Ferrari, Lamborghini, Ducati e tante altre.

Cultura, ricerca storica e le più moderne tecniche di progettazione e sviluppo sono alla base dei nostri Kit. Il valore aggiunto dato dall'esperienza accumulata dal nostro personale assicura che il "Made in Italy" non siano solo parole, ma costanti pratiche di ricerca del miglioramento spinti dalla passione che ci unisce tutti.

Scale modelling Made in Italy

A new year begins. For Italeri, 2023 ended with the painful loss of Giuliano Malservisi, the founding father of the company in 1962 in Bologna, alongside Gian Pietro Parmeggiani.

These events urge us even more strongly to review our history, our origins, and the coherence between the path taken and the goals achieved.

Italeri represents an international benchmark in the scale model kit field. It continues to produce and develop its products in Italy, in the heart of a region rich in entrepreneurial creativity, high technology, and passionate pursuits where prestigious entities like Ferrari, Lamborghini, Ducati, and many others were born.

Culture, historical research, and the most modern design and development techniques form the foundation of our kits. The added value from the experience accumulated by our staff ensures that "Made in Italy" isn't just words but constant practices of improvement driven by the passion that unites us all.

@ItaleriModelKit

Continua inoltre la nostra grande attenzione ai Social Media. Le "Official Pages" Italeri su Facebook, Instagram e Twitter, cresciute in modo significativo per numero di followers, sono un'importante fonte di comunicazione e di condivisione informativa su nuovi prodotti, eventi, e utili notizie storico-modellistiche. Ma soprattutto sono un contenitore online da dedicare ai nostri Amici Modellisti, in tutto il Mondo, e ai loro fantastici modelli realizzati con i nostri kit in scala. Questa è la missione di Italeri: diffondere sempre di più la cultura del modellismo e la passione per il nostro fantastico hobby.

Our presence on social media will continue to grow and be further improved. The Italeri "Official Pages" on Facebook, Instagram and Twitter, which have grown significantly in terms of numbers of followers, are important communication and information sources on which to share new products, events and useful historical and modelling news. But above all they are unique online platforms dedicated to our modelling supporters and communities from all over the world, and not least to their outstanding models reproduced through our detailed modelling kits. It is Italeri's mission to continue to spread the knowledge, interest and cultural heritage of scale modelling together with our enduring passion for this wonderful hobby.

Lancia Stratos HF Gr.4 1/12

Nata per vincere

Costruita appositamente per diventare la regina dei rally, con il suo design avveniristico e tre titoli Mondiali Costruttori vinti dal 1974 al 1976 la Lancia Stratos è una protagonista assoluta nella storia dell'automobilismo. Una nuova star nella Collezione in 1:12 Italeri, una scala che ne esalta le linee costruttive, l'aerodinamica e i dettagli del motore

Born to win

Built specifically to become the queen of rallies, with its futuristic design and three World Constructors' titles won from 1974 to 1976, the Lancia Stratos is an absolute protagonist in the history of motorsport. A new star in the 1:12 scale Italeri Collection, a scale that highlights its construction lines, aerodynamics, and engine details.

Bugatti 35B Roadster 1/12

Dalla pista alla strada

Dopo modelli da corsa unici, mirati a specifici Gran Premi, Ettore Bugatti concepisce la 35 come una vettura da corsa da produrre in serie. Una vettura vincente, leggera e innovativa nelle scelte tecniche come i cerchi in lega leggera a 8 razze. Tanto bella e funzionale da essere adattata all'uso stradale con poche modifiche. Arriva in scala 1:12 la versione "Roadster" della vettura che ha raccolto migliaia di vittorie in pochi anni

From the racetrack to the road

After creating unique racing models tailored for specific Grand Prix events, Ettore Bugatti conceptualizes the Type 35 as a production-series racing car. A winning, lightweight vehicle with innovative technical choices, such as the 8-spoke light alloy wheels. It is so beautiful and functional that it can be adapted for road use with minimal modifications. The 'Roadster' version of the car, which achieved thousands of victories in just a few years, is now available in 1:12 scale.

FIAT 500F (1968) 1/12

L'auto del boom

Nata dalla stessa matita della Topolino, sua progenitrice, la 500 è creata da Dante Giacosa con l'obiettivo di dare una vera mini vettura ad un paese in crescita e affamato di libertà. Nonostante la priorità fosse sulla semplicità e la funzionalità, il design della 500 incanta tutti, rendendola ambasciatrice del design italiano nel mondo. Torna in catalogo, migliorata, in scala 1:12 per poterla ammirare in tutta la sua bellezza.

The car of the boom

Born from the same pencil as the Topolino, its predecessor, the 500 is created by Dante Giacosa with the aim of providing a true mini-car to a growing country hungry for freedom. Despite the emphasis on simplicity and functionality, the design of the 500 captivates everyone, making it an ambassador of Italian design worldwide. It returns to the catalog, improved, in a 1:12 scale, allowing it to be admired in all its beauty.

Volvo FH Low Roof 1/24

Uno svedese ristretto

Per andare a completare la gamma dei camion Volvo FH, quest'anno si aggiunge la versione a cabina bassa. La soluzione ideale per ridurre ulteriormente i consumi, oltre all'ottimizzazione aerodinamica, aumento dell'efficienza della combustione e riduzione delle emissioni inquinanti.

Sempre nella fidata scala 1:24 e la possibilità di tenere gli sportelli aperti per mostrare gli interni.

A compact swede

To complete the range of Volvo FH trucks, a low-cabin version is added this year. The ideal solution for further reducing fuel consumption, Weight reduction, aerodynamic optimization, increased combustion efficiency, and reduced pollutant emissions. Always in the reliable 1:24 scale, with the option to keep the doors open to showcase the interiors.

IVECO S-Way (2022) 1/24

Continua evoluzione

Con modelli sempre più aggiornati da parte della concorrenza, anche IVECO presenta la sua nuova generazione di camion nel 2019. Il S-WAY è nuova motrice pesante per rimpiazzare il "vecchio" Stralis. La cabina del S-WAY è stata completamente rivista rispetto al suo progenitore. Internamente è aumentata l'ergonomia e lo spazio per il conducente; esternamente sono stati migliorati i flussi aerodinamici e i consumi. La stessa concentrazione è stata posta proprio alla cabina, in questo nuovo modello in scala 1:24

Constant evolution

With increasingly updated models from the competition, IVECO also unveils its new generation of trucks in 2019. The S-WAY is a new heavy-duty tractor unit designed to replace the 'old' Stralis. The S-WAY cabin has been completely redesigned compared to its predecessor. Internally, ergonomics and space for the driver have increased; externally, aerodynamic flows and fuel efficiency have been improved. The same attention to detail has been applied to the cabin, in this new 1:24 scale model.

Un monoplano per l'aeronautica

**100%
NEW
MOULDS**

Nonostante le resistenze da parte dei piloti, dopo la guerra civile spagnola la Regia Aeronautica sa di avere bisogno di aerei più veloci: serve un monoplano. Castoldi, lo stesso progettista di idrocorsa vincenti nella Coppa Schneider, risponde alle richieste con questo modello. Un caccia capace di tenere testa a quasi tutti i suoi avversari dell'epoca.

A seguito dei riscontri positivi di tanti modellisti, anche questo caccia in scala 1:32 verrà offerto con le decal 3D.

A monoplane for the Regia Aeronautica

Despite resistance from the pilots, after the Spanish Civil War, the Regia Aeronautica realizes the need for faster aircraft: a monoplane is required. Castoldi, the same designer of winning seaplanes in the Schneider Cup, responds to the demands with this model. A fighter plane capable of holding its own against almost all of its contemporaries.

Following the positive feedback from many modelers, this 1:32 scale fighter will also be offered with 3D decals.

F-35C Lightning II 1/72

L'omniruolo da catapulta

Come ogni F-35 ricopre il ruolo di superiorità aerea, bombardamento e supporto ravvicinato. La versione C nasce per operare dalle navi portaerei munite di catapulte di lancio. Anche se simile alla versione A (a decollo convenzionale) e B (STOL) le parti in comune per le tre versioni sono all'incirca un quarto del totale. Un occhio capace si accorgerà delle differenze anche sul nostro nuovo kit aggiornato appositamente per la versione C in scala 1:72.

The catapult's multirole

Like every F-35, it serves the roles of air superiority, bombing, and close air support. The C variant is designed to operate from aircraft carriers equipped with catapult launch systems. Although similar to the A variant (conventional takeoff) and B variant (short takeoff and vertical landing), the common parts among the three versions make up roughly one quarter of the total.

An observant eye will notice the differences on our new kit, specifically updated for the C variant in 1:72 scale.

NEW 2024

M113 1/35

Fanteria a passo di carro

Nel periodo della guerra motorizzata, il carro armato non può operare efficacemente senza il supporto della fanteria. Serve un mezzo blindato per spostare la fanteria per un'azione militare coordinata. L'M113 è il primo Veicolo Trasporta Truppe cingolato di grande successo, tale da essere il più diffuso VTT al mondo, adottato dalla NATO e anche da stati non allineati. Torna in catalogo aggiornato con nuovi cingoli flessibili.

Infantry at tanks' pace

In the era of motorized warfare, the tank cannot operate effectively without infantry support. An armored vehicle is needed to transport infantry for coordinated military action. The M113 is the first highly successful tracked Armored Personnel Carrier and is the most widely used APC in the world, adopted by NATO and even by non-aligned states. It returns to the catalog updated with new flexible tracks.

Semovente M43
da 105/25 "Bassotto" 1/35

Potenza formato tascabile

Per far fronte alla gara tra corazze sempre più efficaci e armi capaci di penetrarle, nel 1943 Ansaldo presenta al Regio Esercito un cannone da 105mm montato sullo scafo del semovente M42. Più basso di 10 cm del suo progenitore nonostante il calibro aumentato, si guadagna il soprannome di "Bassotto". Anche il modellino in scala 1:35 segue le orme dell'originale, con nuovi interni, cannone e scafo.

Pocket sized firepower

To cope with the competition between increasingly effective armor and weapons capable of penetrating them, in 1943 Ansaldo presented to the Royal Army a 105mm cannon mounted on the chassis of the M42 self-propelled gun. Lower by 10 cm compared to its predecessor despite the increased caliber, it earns the nickname 'Bassotto' (Dachshund). The 1:35 scale model also follows the footsteps of the original, featuring new interiors, cannon, and chassis.

NEW 2024

A dedicated line 80 years after D-Day

The year 2024 represents an important date to commemorate a historic event that changed European and World History: the Allied landing on the beaches of Normandy on June 6, 1944. To celebrate the eighty years since this historic event, Italeri has developed a product line featuring the D-Day 1944-2024 logo and dedicated packaging. This collection includes some of the most significant military vehicles used by both sides during the 'Overlord' operation, from Allied landing craft to the renowned German 'Panzer' tanks. It is a complete collection that combines modeling passion with an interest in history.

Una linea dedicata, a 80 anni dal D-Day

Il 2024 rappresenta una data importante per commemorare un evento che ha cambiato la Storia Europea e Mondiale: lo sbarco da parte degli Alleati sulle spiagge della Normandia il 6 giugno del 1944. Per celebrare gli ottant'anni dallo storico evento Italeri ha sviluppato una linea, caratterizzata dal logo D-Day 1944-2024 e da un "packaging" dedicato, che comprende alcuni tra i veicoli militari più significativi impiegati, da entrambi gli schieramenti, durante l'operazione "Overlord". Dai mezzi da sbarco Alleati ai più celebri "Panzer" tedeschi una collezione completa che coniuga la passione modellistica e l'interesse per la Storia.

Benvenuti nella terza dimensione!

Grande dettaglio
in dimensioni contenute

I Modelli della linea di veicoli militari in scala 1:56 Italeri possiedono due grandissimi pregi: un livello di dettaglio elevato come solo le scale "maggiori" possono offrire e dimensioni contenute. Grazie a queste caratteristiche il modellista potrà realizzare una collezione completa di veicoli militari senza la necessità di avere spazi importanti per esporre i suoi modelli. Inoltre La ricca linea di mezzi militari della Seconda Guerra Mondiale comprende i carri armati più celebri utilizzati dalle forze armate Alleate e dell'Asse.

Welcome to the third dimension!

Great detail
in a compact size

The 1:56 scale Italeri military vehicle line has been developed around a significant strength: a high level of detail in the models that only larger scales can offer, but in a compact size. This is a crucial factor for model enthusiasts who can create a complete collection of military vehicles without the need for significant display space. The line of World War II military vehicles includes the most renowned tanks used by both Allied and Axis forces.

Operation Market Garden
Hotel Hartenstein
Battle Set 1/72

Quando tutto va storto

Maltempo, radio inefficaci, piani rubati e forte resistenza tedesca sono stati alcuni elementi che determinarono il fallimento dell'operazione Market Garden. Il generale Urquhart, a capo della 1ª divisione britannica aviotrasportata, doveva stabilire il quartier generale al Muis Sacrum di Arnhem, ma la situazione lo obbligò a fermarsi a Oosterbeek per una difesa fino all'ultimo proiettile.

When everything goes wrong

Bad weather, ineffective radios, stolen plans, and strong German resistance were some elements that led to the failure of Operation Market Garden. General Urquhart, leading the 1st British Airborne Division, was supposed to establish headquarters at the Muis Sacrum in Arnhem, but the situation forced him to stop in Oosterbeek for a defense until the last bullet.

Schnellboot S-26/S-38 1/35

Elegante ed efficace

Tra le due Guerre numerose Marine Militari realizzarono programmi di sviluppo di flottiglie di motosiluranti in grado svolgere missioni di pattugliamento e di attacco. Le nuove tecnologie motoristiche garantivano, rispetto alla Prima Guerra Mondiale, maggiori prestazioni e una maggiore efficacia operativa. La Kriegsmarine tedesca sviluppò, durante gli anni '30, le famose motosiluranti della classe S. Tra il 1939 ed il 1940 vennero costruita la serie S-26, riconoscibile per un castello di prua integrato con i due tubi lanciasiluri da 533 mm. Tra le più celebri Schnellboote possiamo ricordare quelle appartenute alla versione S-38. Questo kit, che stupisce per l'accuratezza e la precisione nella ricostruzione dei dettagli, riguarda proprio le due serie più celebri.

Elegant and effective

Between the two wars several Navies undertook development programs to implement flotillas of motor torpedo boats capable of carrying out patrol and attack missions. The new engine technologies, compared to First World War versions, provided greater performance and operational efficiency. During the 1930s the German Kriegsmarine developed the famous S-class motor torpedo boats. Between 1939 and 1940 the S-26 series was built and characterised by a forecastle integrated with two 533 mm torpedo tubes. The S-38 was one of the most celebrated Schnellboot versions, with almost 100 units produced. This kit, which amazes for the accuracy and precision in the reconstruction of details, concerns the two most famous series.

COMPLETE SET FORMODELING

The complete set to start your new passion!

Everything you need to make the first model kit and the future ones

Il set completo per iniziare la tua nuova passione!

Tutto quello che ti occorre per il tuo primo kit e per quelli a seguire

- 1) One plastic model kit with decals
- 2) Glue for plastic (liquid cement 5ml)
- 3) Main acrylic paints (3x7ml)
- 4) Brush
- 5) Precision tweezers
- 6) Doublesided sandpaper
- 7) Sprue cutter
